## Purely Business!

The columns of a newspaper require a large amount of space, and the publisher can afford to give advertising "notices" free, any more than a merchant can afford to give away a large quantity of dry goods or shoes. # We Have!

Our many years experience goes to show that people want good goods, and for which they are willing to pay a fair price. Our 1898 spring business proves that the higher class of goods the readers will sell. The eyeball is white because the blood vessels that feed its substance are so small that they do not admit the red corpuscles.

Ed. King and his wife and William Walton and son, Alle, engaged in a fight near Minerva a few days ago and all were more or less hurt.

A horse hitched to a buggy created quite a commotion in front of M. C. Russell &amp; Son's business house yesterday afternoon. The animal frightened at an electric car which was passing and made a breakaway on the inside of Mr. Russell's house. It got as far as the door where it fell, breaking the shafts of the buggy and causing other slight damage to the vehicle. After a time every thing was cooled down, the buggy taken to an adjoining shop where it was repaired, and the owners made their way home.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look about him and see that the best available opportunity presents itself; he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Collie, Cholera and Diarrhea ready in the house, the physician will wait until necessity compels him and then ruin his best hopes for a doctor and have a big doctor bill to pay besides. One pays out costs, the other is out a hundred dollars, and then wonders why his neighbor is getting richer while he is getting poorer. For sale by J. James Wood, Druggist.

Fremont Park. Crowded to full capacity every evening of the stage, five hundred turned away tells the story. "Nithago."

Electric Park. There was an appreciative audience out at this cozy little theater last night. Howard and Livingston were pleasing as ever, while the DeWitts in their turn elicited much hearty applause. The Newell Sisters as "Babes" were as funny as ever. There will be a change in the program tonight, so go out and have a good time. The round trip fare and a ticket to the show is only 10 cents.

## THE BUYERS' GUIDE.

The Largest Shipment of

Binder  
Twine!

was received Monday, Tuesday and Wednesday, May 9th, 10th and 11th, 1898, by JOHN I. WINTER, THE PRICE FIGHTER. There was 30,000,000 (thirty million) feet in the shipment, and every foot of it is the truly famous Deering Pure Sisal. Every foot was made by hand, either after one using a scissoring process, or by a scissoring and then a binding process. Pure Sisal. None of us are too old to learn. If your neighbors are not using a Deering Pure Sisal Twine has become great that were compared to the year before 1890. Now there is a difference in the way we use our country. The price of this Twine is tested at a much higher tension than any binder requires in tying, while in other makes of twine only 100 feet out of every 30,000 feet is tied. Deering Pure Sisal Twine is made of extra long and strong strands of fiber. The strength of this twine is twice that of any other twine in the world. To make a long story short, I offer the following: Take out a lot of Deering Pure Sisal Binder Twine, if you don't find that it will bind as well as when it was first made, then return it to me. If you do, then you will please return it and every cent of your money will be refunded. Surely, that's fair! You are to be your own judge. Say, I am saving your money in twine. I thought you had advanced ever since. I am willing to give my friends and customers the advantage of my judicious purchase. I am selling twine today 10¢ a pound less than the market price. In buying Binder Twine, Farm Implements, Mowers, Wagons, Self Binders it always pays to consult The Price Fighter.

Official Description of the Trans-Mississippi Issue.

PUT ON SALE LAST SATURDAY.

The Hon. John A. Merritt, Third Assistant Postmaster General, has issued a description of Trans-Mississippi stamps which have just been put on sale throughout the country. No Trans-Mississippi postal card or stamped envelopes will be issued.

Although this series of stamps will be discontinued on December 1st, 1898, they will be good for postage at any time afterward. The stamps are issued as a compliment to the Omaha Exposition, similar to the Columbian stamps of a few years ago.

The Trans-Mississippi stamp is differentially in size from the ordinary series, the engraved space being about seven-eighths of an inch wide by about one and three-eighths long.

The border, which forms in its inner edge an irregular oval framework to each of the scenes represented, consists of a dotted figure on either side, with interior cross-bars, beginning in a single line near the bottom of the stamp, and enlarging until it reaches a shield in each of the upper corners, wherein is engraved in white the Arabic numeral of denomination—the dollar mark being also included in the case of the one and two dollar stamps. At the top, connecting the two shields, and uniting to the dotted framework on the two sides, is a curved tablet, on which are engraved in small white capitals the words "United States of America." Above this, on either side, are heads of wheat, and between these a small scroll. Immediately below the central scene is the title of the picture in diminutive white Gothic letters on a curved tablet, and below this on either side, in scrolls, are the words of value, "one," "two," and so on, in white capital, except in the case of the two highest denominations, when "51" and "82" are substituted for letters. Above each of these is a projecting ear of corn, and at the bottom of all on a straight black tablet are the words "Postage One Cent," "Postage Two Cents," and so on, in white capitals.

The scenes represented on the stamps, together with the colors of the several denominations, are these: One cent—"Marquette on the Mississippi," from a painting by Lamprecht, now in possession of the Marquette College of Milwaukee, Wis., representing Father Marquette in a boat on the upper Mississippi, preaching to the Indians. Color, dark green. Two cent—"Farming in the West," from a photograph, representing a Western grain field with a long row of plows at work. Color, copper red. Four cent—"Indian Hunting Buffalo," reproduction of an engraving in school history of the Indian Tribe. Color, orange. Five cent—"Fremont on Rocky Mountains," modified from a wood engraving, representing the Pathfinder planting the United States Flag on the highest peak of the Rocky Mountains. Color, dark blue. Eight cent—"Troops Guarding Train," representing a detachment of United States soldiers convoying an emigrant train across the prairies, from a drawing by Frederic Remington, permission to use of which was kindly given by the publisher, R. H. Russell of New York. Color, dark blue.

Ten cent—"Hardships of Emigration," from a painting kindly loaned by the artist, A. G. Heaton, representing an emigrant and his family on the plains in a "prairie schooner," one of the horses having fallen from exhaustion. Color, slate.

Fifty cent—"Western Mining Prospector," from a drawing by Frederic Remington, permission to use of which was kindly given by the publisher, R. H. Russell of New York, representing a prospector with his pack mules in the mountains, searching for gold. Color, olive.

One dollar—"Western Cattle in Storm," representing a herd of cattle, preceded by the leader, seeking safety from a gathering storm, reproduced from a large steel engraving after a picture by J. MacWhirter—the engraving having been kindly loaned by Mrs. C. B. Johnson. Color, light brown.

Two dollars—"Mississippi River Bridge," from an engraving—a representation of the great bridge over the Mississippi at St. Louis. Color, sapphire blue.

## A Changed View of a Changed Man.

I am completely disengaged after trying so called specialists and different advertised remedies. I feel that I am getting worse instead of better and have almost given up hope of ever being cured of my kidney trouble.

I have changed my mind, for, after reading of the positive guarantee of Foley's Kidney Cure, as a forlorn hope I tried a bottle, and the result was so favorable that I continued its use until I had taken three bottles which effected a thorough cure, and I am a changed man.
